- **Notes**

- You can share/create presets with the IRs in “AC30BMS Impulse Response Pack” without my prior consent.
In that case, adding my credit as the IR source and this document is much appreciated.

Table of contents

- **Close-Mic IRs**
 - “AC30BMS TLM103 00 (km.202257)” ...05
 - “AC30BMS TLM103 0 (km.202257)” ...06
 - “AC30BMS TLM103 -0.5 (km.202257)” ...07
 - “AC30BMS TLM103 -1 (km.202257)” ...07
 - “AC30BMS SM57 0 (km.202257)” ...08
 - “AC30BMS MD421 0 (km.202257)” ...09
- **Ambient Mic IRs**
 - “AC30BMS Rear SM57 (km.202257)” ...10

- **Appendix: Equipment** ...12

AC30BMS TLM103 IRs

- AC30BMS TLM103 00
 - Onto the surface, mic slightly angled
- AC30BMS TLM103 0
 - Onto the surface of the cab
- AC30BMS TLM103 -0.5
 - 0.5cm away from the cab
- AC30BMS TLM103 -1
 - 1cm away from the cab

AC30BMS TLM103 00

(Sorry, no photos
available)

- Character
 - Clear, Transparent
 - Balance btw. Speaker/Resonance
- Use Case (Recommended)
 - “All-Purpose”, incl.
 - Clean/Crunch/Distortion
 - Rhythm, Lead
 - Maintain clarity in a mix with multiple tracks

AC30BMS TLM103 0

- Character
 - Harsher
 - More mid/high frequencies
- Use Case (Recommended)
 - Distorted Lead, especially for “out-of-phase” ear-piercing tone
 - Cut through in a mix with multiple tracks, in case “TLM103 00” don’t work

AC30BMS TLM103 -0.5/-1

- Character
 - Warmer
 - Less high/low frequencies
- Use Case (Recommended)
 - Clean/Crunch Rhythm
 - Add more cab/room resonance in a mix with lesser tracks

AC30BMS SM57 0

- Character
 - Warmer, drier
 - Less resonance
- Use Case (Recommended)
 - “All-Purpose”, incl.
 - Clean/Crunch/Distortion
 - Rhythm, Lead
 - Maintain clarity in a mix with multiple tracks, but with dirtier feel

AC30BMS MD421 0

- Character
 - Warmer, darker
 - Less high frequencies
- Use Case (Recommended)
 - Tried it only to find I'm not a fan of MD421 that much. Enjoy if you like it

AC30BMS Rear SM57

- Character
 - Muffled, Hollow
 - Focused on middle frequencies
- Use Case (Recommended)
 - Slightly mix with other close-miced tracks/IRs to add cab resonance
 - Mix more to get “hollow” lead tone
 - Mix with “AC30BMS TLM103 0” to get “out-of-phase” ear-piercing tone

AC30BMS VORTEX TLM103

- Character
 - Muffled
 - Lots of room resonance
- Use Case (Recommended)
 - Get amp-in-a-room tone
 - Hard-pan against other close-mic'd tracks for an interesting effect

*Use with IR loaders compatible with longer IRs (170ms or longer)

Appendix: Equipment

- Original Cab
 - VOX AC30/6 TBX (Modified to “Brian May Special” at Shere Sound)
 - Made in mid-90’s at Marshall’s factory in UK
 - Loaded with 2x12 Celestion Blue Alnico made in UK
- Microphones
 - Neumann TLM103, Sennheiser MD421 MKII, and Shure SM57
 - All connected to MIDAS XL48 mic preamp
- Audio I/O
 - RME Fireface UCX
 - Run in 96khz/24bit in the entire session
